Hey Zach,

I hope you're keeping well!

One of our constituents reached out to us and MPP Martin's office regarding a recent issue [Pers.] facing. The constituent, [Persona] had donated to the trucker's convoy and was recently doxed on Twitter. [Personal] personal information has been released on the platform, and [Per.] is currently receiving threatening messages.

In response to [Per.] email, I replied asking for permission for our office to contact the appropriate TPS division's non-emergency unit to register this concern and to request patrol cars to visit [Per.] neighbourhood to help provide additional safety. Also, I provided the link to the Canadian Anti-Fraud Centre website for [Per.] to report this incident to.

I'm wondering if there is any messaging that we can provide [Person] with, through a Public Safety perspective, on what is being done to assist individuals who've been doxed, like [Persona]

Any information is much appreciated, Zach!

Regards,

Alexander Grund
Constituency Assistant
Office of the Hon. Marco Mendicino, P.C., M.P.
Eglinton-Lawrence

Subject: Illegal Activity - My personal safety

Hello Premier Ford, MP Mendicino and MPP Martin,

MP Mendicino and MPP Martin I am a constituent in your areas. I am not going to include my address as I am currently concerned about hacking but I have contacted you both before and my address is noted in those previous emails.

I am writing to let you know that I am being doxed and harassed. Last night on twitter my personal information was shared. There is a circulating list of donor names that was hacked from givesendgo. My full name and somehow [Personal] where I work [Personal Info.] and [Personal Info.] was posted online, shared with tens of thousands of people and has been retweeted

numerous times (I have attached screen shots). The public is commenting on these lists of names threatening harassment and physical harm. This is illegal. I reported the two accounts that have violated my privacy to twitter and I received a reply that the tweets/accounts do not violate twitter rules. I have already received a threatening email referencing my supposed "donation supporting crime" to my personal email account at 2 a.m. this morning. I do not know how my personal email was found.

I am extremely afraid for my safety. People are now able to research the location of **Personal** my home and my telephone number.

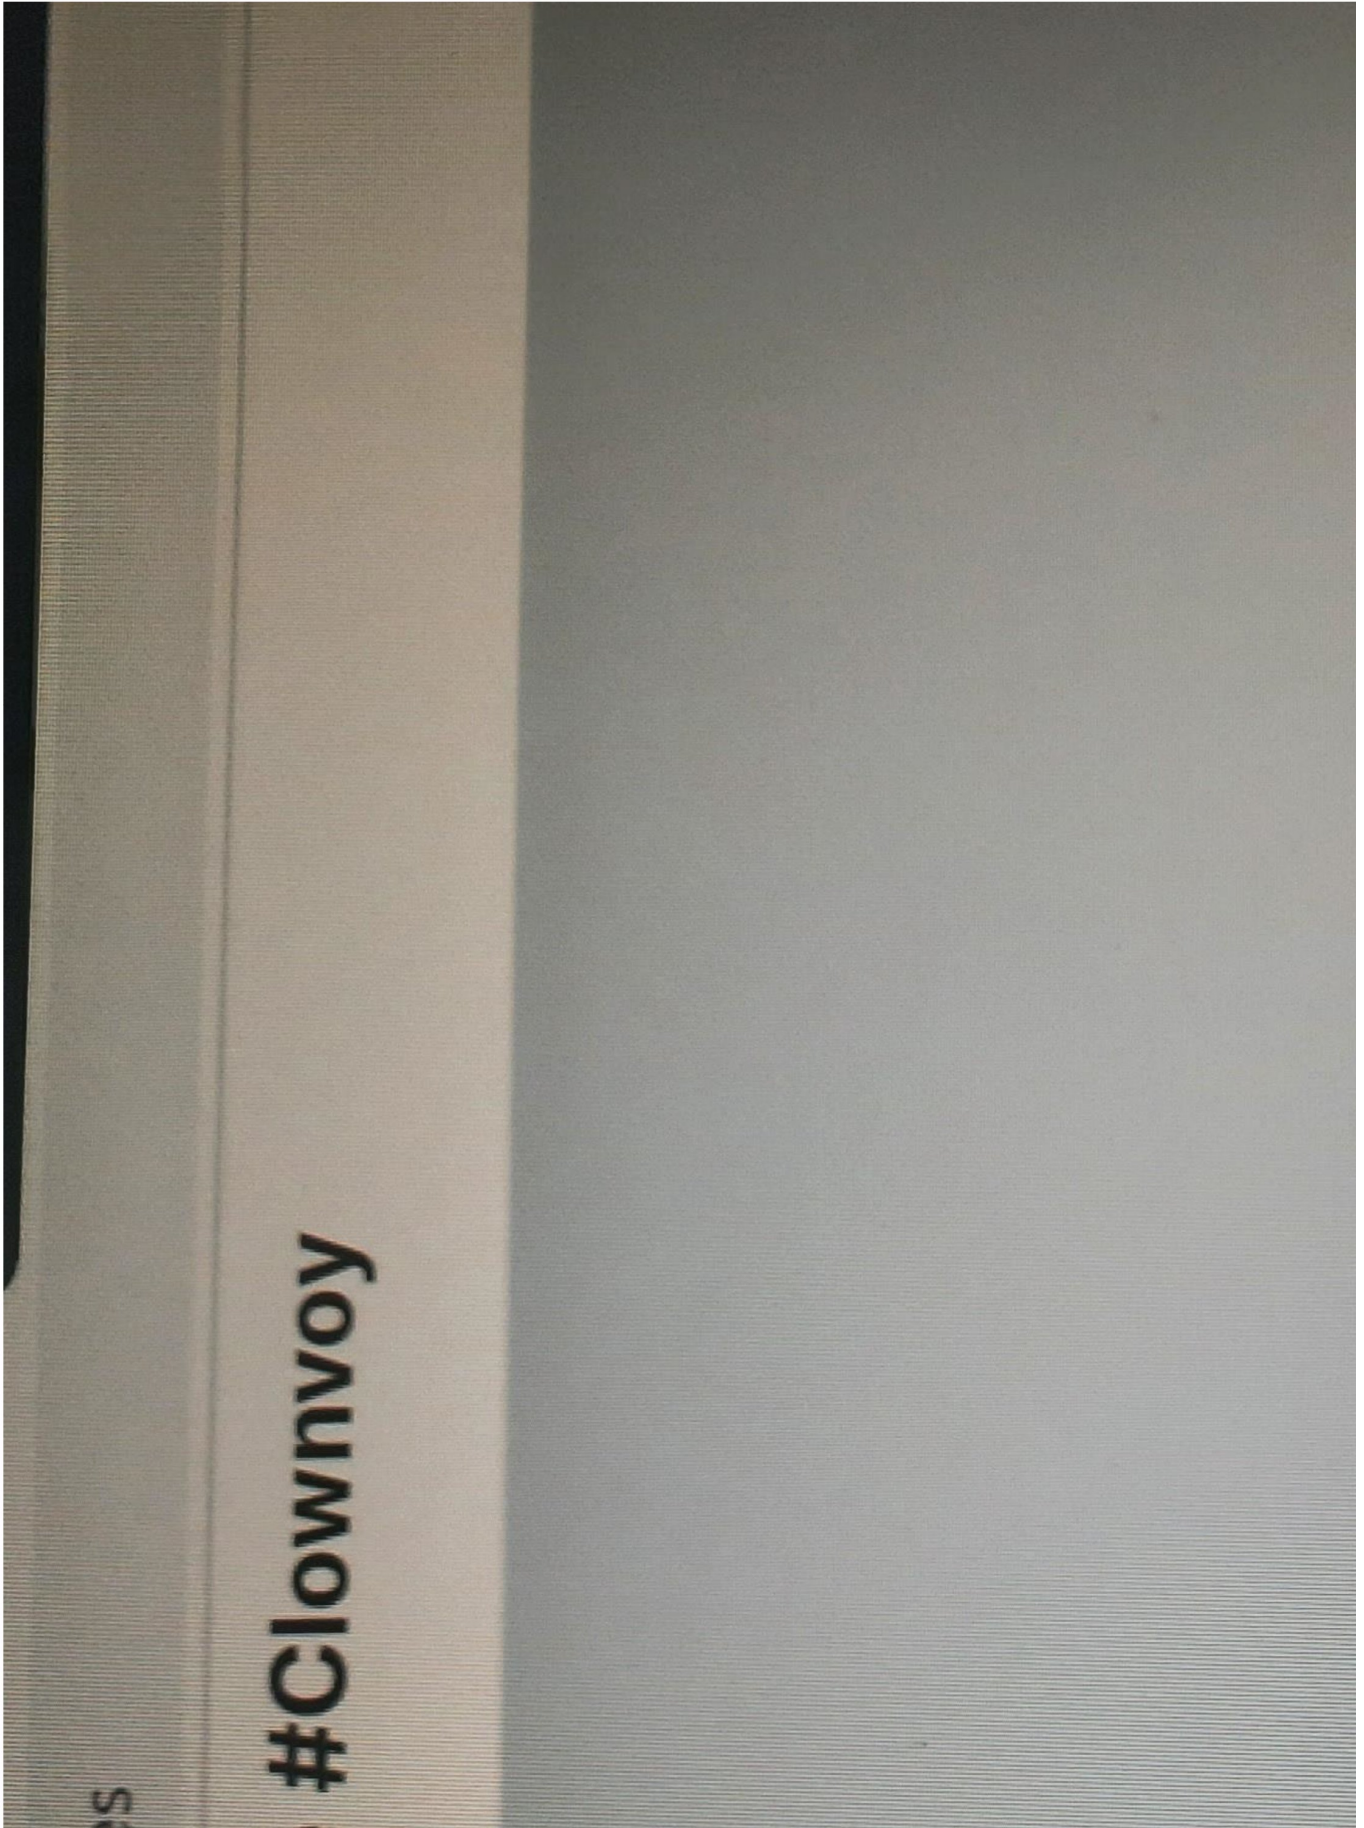

What will be done about this? Prime Minister Trudeau is invoking the Emergency Act claiming that he is concerned for the safety of Canadians. Well I am a Canadian too. What about my safety? I am already being terminated from my job and ostracized from society. My mental health is already compromised and this is only making it worse. I have not slept since this online attack.

This is a direct result of the division being created and aggravated by elected officials. Something must be done.

What will you do about this illegal action against me? I am at risk of harm. I am feeling very unsafe. I would like a response as soon as possible.

Thank you,
Personal Info.

The entire list for Toronto is about 2,068 entries long, with a lot of hotmail, gmail, yahoo and protonmail addresses. There are names that appear multiple times, and many that appear to be from overseas hosting providers. And some obvious burner accounts.
